EDUCATION

Vellore Institute of Technology, Vellore
Bachelor of Technology in Information Technology

Aug 2023 – Aug 2027
CGPA: 8.33

Delhi Public School, Rohini, Delhi
Class XII, CBSE

Apr 2023
86.60%

Delhi Public School, Rohini, Delhi
Class X, CBSE

Apr 2021
94.80%

EXPERIENCE

Vice-Chairperson
Computer Society of India (CSI), VIT Vellore

Dec 2025 – Present
Vellore, Tamil Nadu

- Executed 20+ technical events at VIT through planning and strategy, including DevSpace (hackathon with 1000+ participants), achieving a 4.3/5 average satisfaction rating and 85% skill-gain feedback across participants.
- Spearheaded 15+ technical workshops spanning full-stack development, blockchain, and AI/ML, driving student engagement training 3,000+ students and maintaining a 94% event completion rate through consistent reporting.

Software Developer Intern
Veersa Technologies

May 2026 – Jul 2026
Noida, Haryana

- Developed an Agentic AI staffing pipeline using React, Node.js and PostgreSQL, integrating 10+ REST APIs to power resource matching across 600+ employees and implementing automations for enterprise project staffing.
- Built a 6-agent Gemini-powered orchestration system with a planner-critic retry loop and 4 configurable business matching strategies, scoring candidate recommendation across 15+ attributes with 4-decimal precision.
- Engineered a session-scoped matcher prompt override system with an editable UI exposing the live Gemini system prompt, enabling real-time ranking reconfiguration and process optimization without backend redeloys.

Software Developer Intern
Tech Superior Consulting

May 2025 – Jul 2025
Gurugram, Haryana

- Improved HRMS product usability score from 6.2 to 8.4/10 by building drag-and-drop React components with real-time validation, reducing form completion time by 43% through targeted process improvement.
- Reduced API response latency by 67% (from 340ms to 112ms average) by implementing Redux state management and optimizing RESTful API integration with Axios across 15+ frontend modules.

PROJECTS

VaultDrive | Cloud Storage Platform with Smart Deduplication

Apr 2026 – Present

- Implemented a Kafka-Redis analytics pipeline, cutting file metadata query latency from 420ms to 85ms.
- Architected an event-driven analytics pipeline using Apache Kafka and Redis caching, reducing file metadata query response time from 420ms to 85ms through efficient cache layer implementation.
- Built secure RESTful APIs with JWT/OAuth authentication and deployed containerized microservices via Docker Compose to AWS EC2, implementing a 3-tier layered architecture with rate limiting and secure file access controls.

Passwordless Biometric Cloud Storage System | MERN Stack, WebAuthn API

Mar 2026 – Apr 2026

- Architected a WebAuthn biometric authentication system, securing 500+ file transactions.
- Implemented multi-factor hardware key integration with JWT-based session management for passwordless security.
- Secured REST APIs using MongoDB indexing and rate limiting, reducing unauthorized access by 97%.

RNN-Based Broadway Time-Series Analysis | TensorFlow, Keras, Selenium

Jan 2026 – Feb 2026

- Engineered a machine learning SimpleRNN counterfactual forecasting model on 1,300+ weekly customer demand records, quantifying an 18.6% post-announcement price surge and 14.47% COVID-19 resilience vs. predicted collapse, testing data trends via Selenium-based scraping and analytics.

ACHIEVEMENTS

- Indian Patent No. 587845 | Government of India, Jun 2025 (Granted)** — Invented *UniPlay*, adaptive learning platform for 4 disability groups; custom accessibility architecture via Web Speech API and ARIA, 100% compliant.
- Won 1st place among 500+ participants for building an accessible learning platform with 15+ inclusive games.

TECHNICAL SKILLS

Languages & Databases: Java, JavaScript, Python, SQL, HTML/CSS, PostgreSQL, MongoDB, Redis

Frameworks & Libraries: React.js, Redux, Tailwind CSS, Node.js, Express.js, TensorFlow, Keras, Selenium

Cloud & DevOps/Data Engineering: AWS, Docker, Docker Compose, Microservices Architecture, Apache Kafka
